

DATA SHEET

Fusion Splice Protection Sleeves

40 mm & 60 mm Lengths

RLH Fusion Splice protection sleeves offer durable and long lasting protection for single fiber splices. A stainless steel rod is included to help provide rigidity and stability to your fusion splice. A fiber splice sleeve is added prior to splicing a fiber. Once spliced a heater will shrink the diameter down to 2.6 mm over the splice for protection.

Key Features

- Slim diameter, 2.6 mm
- Stainless steel rod for increased protection
- Fits RLH splice trays and holders
- Available in 40 mm & 60 mm sizes
